

Reproductive Health Supplies Coalition
New and Underused Reproductive Health Technologies Caucus
Terms of Reference
Last updated: May 2018

Article 1. Introduction

The Reproductive Health Supplies Coalition (RHSC) is the largest network of reproductive health (RH) organizations in the world. Its membership spans the public, commercial, and not-for-profit sectors—all of which play vital roles in ensuring that high-quality RH supplies find their way into the hands of those who need them. The RHSC brings together a diversity of partners and mobilizes their collective strengths to increase access to a full range of affordable, quality reproductive health supplies in low- and middle-income countries.

As a membership organization, the RHSC adds value by promoting sustained, coordinated action amongst its members and other partners. One avenue for bringing members together is through the RHSC's Implementing Mechanisms (IM), which are communities of practice working toward a specified and agreed-upon objective^{*}. Subject to regular oversight from the Secretariat and periodic review by the RHSC's governing board - the Executive Committee (EC) - IM objectives and activities must relate and contribute to the achievement of the RHSC Strategy.

Participation in IMs is voluntary and open to all members who agree to support the IM's objective(s) and abide by the IM's TOR. Members should express their interest in participating in an IM by contacting the elected IM Chair(s) or the designated Secretariat Coordinator. IMs are responsible for having and adhering to their own TOR, which are linked and must specify adherence to the RHSC TOR, guiding principles, mission, vision, and strategy. Any sustained digressions or significant diversions from these may be brought to the attention of the EC for resolution.

These TOR specifically cover the objectives, functions, composition, leadership, and conditions for dissolution of the **New and Underused Reproductive Health Technologies Caucus (NURHT)**.

Article 2. Objectives

The Caucus on New and Underused Reproductive Health Technologies (Caucus) is a community of practice whose membership cuts across the Reproductive Health Supplies Coalition's three Working Groups. The Caucus functions as an intermediary within the Coalition—Caucus members belong to both the Caucus and at least one of the Coalition's Working Groups. This

^{*} As of January 2017, the RHSC IMs are the following: *Working Groups* - Advocacy & Accountability, Market Development Approaches and Systems Strengthening; *Caucuses* – Generic Manufacturers, New/Underutilized RH Technologies, Maternal Health Supplies; and *Regional Forums* - El Foro Latinoamericano y del Caribe para el Aseguramiento de Insumos de SR (ForoLAC), Sécurité Contraceptive en Afrique Francophone (SECONAF).

dual membership allows Caucus members to encourage Working Group discussions and activities that align with the Caucus' goal and purpose.

The goal of the Caucus is to help improve clients' choice of available reproductive health technologies. The purpose of the group is to contribute to country-level efforts to achieve universal access to reproductive health services and products, and facilitate their use to reduce both unwanted pregnancy and maternal mortality and morbidity. The Caucus aims to expand the supply of new and underused technologies through the public, private, and social marketing sectors to improve equity and meet the needs of lower-income population segments.

Members of the group are undertaking the following approaches toward meeting this goal:

- Broaden the discussion within the Coalition of technologies that meet users' needs and have desirable effects on reproductive health, but are not well integrated into the public or commercial sectors globally or in large regional markets.
- Collaborate with the Working Groups to identify specific initiatives that contribute to improved choice at the national level through improved supply
- Identify common barriers that all NURHT products face in areas such as new product introduction, registration, uptake, scale-up and more.
- Provide a space for the Coalition to support access to safe abortion from a supplies angle.

Article 3. Functions

The form and function of the NURHT is determined by its own members to best accomplish its specified objectives. As a community of practice, the NURHT brings together RHSC Secretariat staff, official RHSC members, and other partners[†] of the RHSC to implement activities, advance work streams of the WG, share information and resources, and provide overall guidance to the RHSC's work related to new and underused RH technologies at the global and national levels.

3.1 Roles and Responsibilities of Working Group Members and Chair(s)

- Selection of NURHT Chair(s): The NURHT, under direction of the RHSC Secretariat Coordinator, participates in the recruitment and election of the NURHT Chair(s) through the process described in Section 5.2.
- Governance and decision-making: The NURHT Chair(s) ensures that the NURHT's governance and related decisions are made on a consensus basis. If issues need to be resolved by a vote, the following rule governs: the position expressed by a majority of those present at in-person or virtual meetings, through voting, constitutes the decision. Decisions by the NURHT do not override NURHT members' respective governing bodies.

[†] Many non-member organizations and individuals, referred to in these TOR as "Partners," are actively and often routinely involved in RHSC affairs and/or those of its IMs. Partners often play critical roles within the RHSC, may bring needed technical expertise, and may open up new avenues for cooperative learning and collaboration.

- iii. Activities: In accordance with these TOR, the NURHT is responsible for overseeing, organizing and strategically planning its workstreams and activities, which should be linked to the priorities and objectives set forth and described in Article 2 and explicitly support the RHSC Strategy. Members' project/program activities in their respective countries or context constitute an integral part of the NURHT's work.
- iv. Reporting responsibility: As an IM of the RHSC, the NURHT is responsible to the RHSC Executive Committee and reports back to the EC as requested via the Chair(s).
- v. Membership engagement: As a community of practice, the NURHT is expected to regularly convene its members through teleconferences, meetings (hosting, at a minimum, one in-person meeting during the RHSC General Membership Meeting), informational webinars, and other events. This allots WG members the opportunity to provide and hear updates on workstreams and activities; share and learn about new information, resources, and tools on new and underused RH technologies; network; share intelligence and contribute to overall planning for and implementation of NURHT work.
- vi. Communications: Routine communications are facilitated by, but not limited to, an electronic distribution list, moderated by the Secretariat Coordinator, to which any WG member can contribute. The purpose of this distribution list is to schedule meetings and events, share news, and generate discussions amongst members.
- vii. Representation: The NURHT acknowledges that it does not speak for the RHSC, but for its members, and it agrees not to present itself as the voice of the RHSC. If the NURHT is interested in pursuing this option for specific cases, RHSC EC approval is required.
- viii. RHSC engagement: Fostering collaboration across the RHSC's diverse membership, the NURHT is expected to engage and share information/updates with other RHSC Members and IMs through NURHT representation at other IM meetings, sharing of NURHT resources and updates, and participation in joint-IM initiatives that are relevant to NURHT priorities. The NURHT Chair(s) represent(s) the NURHT on the RHSC Council of Chairs (Article 5.4.1.iv).

3.2 Roles and Responsibilities of Secretariat:

- i. Secretariat support to implementing mechanisms is described in the RHSC Terms of Reference (specifically sections 4.6.1.1 and 4.6.1.2).

Article 4. Composition

4.1 Criteria for Membership

To be eligible for membership of the NURHT, individuals must adhere to the following criteria:

- i. Membership is open to any individual from a member organization of the RHSC.

- ii. Members of the NURHT should have a significant programmatic and/or financial stake in meeting family planning and reproductive health supply needs, including demonstrating a vested interest in new and underused RH technologies.
- iii. Members of the NURHT should be proactive in sharing and building the knowledge base on new and underused RH technologies for RH supplies to further strengthen the community of practice.
- iv. Members of the NURHT should be ready to volunteer in the WG's activities with a view to strengthening the overall RH coalition.

4.2 *Process*

- i. Prospective NURHT members request inclusion in the NURHT by communicating directly with the NURHT Chair(s) and/or RHSC Secretariat Coordinator all relevant contact information for the prospective member.
- ii. The Secretariat Coordinator will confirm NURHT membership status with the prospective NURHT member and include his/her contact information in all group membership lists (i.e. mailing list).
- iii. The Secretariat Coordinator and Chair(s) should provide the new NURHT member with a brief orientation to the NURHT, as well as make any necessary introductions to other NURHT members that may be deemed appropriate or beneficial to current NURHT activities.
- iv. After onboarding, new NURHT members are expected to actively participate and engage in NURHT activities, meetings, and workstreams.

Article 5. Leadership

The NURHT is led by one or two Chairpersons. A Chair of the NURHT is a person who is an active member of the NURHT and whose organization is an institutional member of the Coalition. The Chair has the vision, collaborative spirit, commitment, and support to effectively guide the group in its work to further the mission of the RHSC.

Through the Secretariat Coordinators, the Coalition Secretariat collaborates closely with the NURHT Chair(s) on anything related to the strategic functioning, coordination, and communication of the NURHT and its workstreams. Furthermore, the Secretariat Coordinator helps to ensure linkages are established with other RHSC IMs. Roles and tasks of the Chair(s) and Coordinator will be determined based on mutual agreement.

5.1 *Eligibility*

Any active member of the NURHT can put forward a candidacy for the position of Chair. Candidates must:

- i. Be willing and able to fulfill the responsibilities of the Chair, including its representative role inside and outside the RHSC;
- ii. Devote adequate time and effort to effectively lead the NURHT; and
- iii. Have good oral and written communication skills, including fluency in English.

If a co-leader arrangement is deemed appropriate for the NURHT, co-leaders must belong to different organizations and have personal and institutional strengths that complement and reinforce each other. In addition, the co-leadership arrangement aims, as much as possible, to be gender, geographic and thematically balanced.

5.2 *Leadership Selection Process*

Members of the NURHT elect their Chair(s) through a formal election process. In case of a precipitate departure of the Chair, the Secretariat will promptly initiate the process of a new election to replace the departing Chair.

To ensure transparency and minimize any potential conflicts of interest, the election will be led by the Secretariat Coordinator and overseen by a Nomination Committee.

5.2.1 Nomination Committee

- i. The Nomination Committee comprises no more than four persons, including an NURHT member from the Global South.
- ii. The Nomination Committee will be convened by the Secretariat Coordinator.
- iii. Member organizations of the Nomination Committee may still cast a vote in the election.
- iv. Members of the Nomination Committee may not be nominated to the ballot.

5.2.2 Election Procedures

In conjunction with the current Chair(s) and no later than three months before the term of the Chair(s) is to expire, the Secretariat Coordinator reviews and updates the Chair TOR and disseminates this TOR to all members of the NURHT. The Secretariat Coordinator solicits four NURHT member volunteers to serve on the Nomination Committee, which oversees the nomination of candidates for the Chair position.

No later than two months before the term of the Chair is to expire, the Nomination Committee will invite NURHT members to put forward candidacies for the Chair position. One month prior to the end of the Chair's term, the Nomination Committee will forward to the NURHT members the names of all eligible candidates. In the event of more than one candidate, the Nomination Committee will announce an election.

Only one vote per RHSC Member organization will be allowed. It is the responsibility of the member organization to internally determine who votes on behalf of the organization. The vote will be conducted by secret ballot (either via online, email or in-person if it coincides with an NURHT meeting). All votes are confidential from NURHT members and from the current NURHT Chair(s). The RHSC Secretariat Coordinator will monitor the responses to ensure that only one response per RHSC member organization is provided. In the event that multiple differing responses are received from a single organization, participants will all be contacted to nominate a single voter.

In the case of an in-person election, NURHT member organizations unable to attend the election may notify the Nomination Committee of their vote in writing (or through a proxy). The vote must be received in advance of the election. The Secretariat will coordinate the voting process.

In order to reduce the likelihood of ties and/or re-elections, the NURHT election process will be determined by the nomination committee depending on the number of candidates and likely voters. In the event of no simple majority there will be a run-off between the top two candidates. In the event of a tie, members of the Nomination Committee, (except the Secretariat Coordinator) along with the current Chair(s), will have three business days to select the new Chair and inform the Secretariat from amongst the top two candidates.

5.3 *Terms of Service*

5.3.1 Term Duration

The Chair(s) serve(s) a two-year term with the option to be extended for an additional two years, with approval of NURHT members. All WG members have the option to stand for elections every two years.[†] In the event that one or more WG members express interest in running for Chair, the incumbent will have to put him/herself up for re-election.

5.3.2 Term Termination

The Chair(s) may terminate his or her term at will. In cases of termination, the Chair should inform the RHSC Director and the RHSC IM Coordinator at their earliest convenience of their wish to discontinue their role, to allow him or her to organize a new election.

The Secretariat, under the direction of the Executive Committee, reserves the right to oppose or terminate leadership positions, prior to their expiring.

5.4 *Roles and Responsibilities*

5.4.1 Scope of Work

The Chair(s) must commit to allocating adequate time to fulfill the responsibilities of the position, which requires an average of 20 working days per year. Additional human resources from the Chair's organization may be used to assist him/her to fulfill the responsibilities of the position. The time and human resource costs of the Chair position are borne directly by the organization of which the Chair(s) is employed.

The Secretariat may allocate modest financial support to the NURHT Chair(s) to cover core expenses (travel costs and communication expenses) as needed.

In no case will the NURHT Chair(s) or his/her organization be responsible for covering the financial expenses of any NURHT meetings or activities. In principle, NURHT "activities are supported by participating NURHT organizations or through funds raised by the NURHT."

The Chair(s) of the NURHT also holds the following roles/responsibilities:

- i. NURHT Activities and Monitoring:
 - a. Oversee and strategically plan NURHT workstreams and activities which should be linked to the priorities and objectives set forth and described in Article 2 and explicitly support the RHSC Strategy.
 - b. Responsible for ensuring workstreams function as intended and that activities are implemented as planned.

[†] With approval of the NURHT Nomination Committee.

- c. Clarify NURHT roles and responsibilities and ensure that quality is achieved, activities are implemented, and regular communication is maintained.
 - d. Liaise with workstream leaders.
- ii. NURHT Partnerships and Visibility:
 - a. Ensure the visibility of the NURHT's work both internally and externally of the RHSC.
 - b. Act as a conduit between the RHSC Executive Committee and the NURHT and between the latter and other IMs (including but not limited to WGs, caucuses, forums) of the RHSC.
 - c. Proactively create opportunities for northern and southern NURHT members to collaborate and coordinate.
 - d. Convene and chair NURHT meetings, including regular and/or ad-hoc conference calls, and facilitate the adoption of consensus-based, action-oriented decisions.
 - e. Convene regular learning events to increase visibility and information sharing between NURHT members and other IMs.
- iii. NURHT Fundraising and Funding Mechanisms:
 - a. Identify and respond to both internal and external fundraising opportunities.
 - b. Review and select proposals from NURHT members for submission to RHSC funding mechanisms, including the Innovation Fund.
 - c. To avoid conflict of interest, the organization to which the Chair belongs is not eligible to submit proposals to the Innovation Fund through the NURHT. The organization is however, eligible to submit through any other IM.
 - d. Review grant deliverables/reports and provide critical feedback on all RHSC-funded projects sponsored by the NURHT.
- iv. Represent NURHT on RHSC Council of Chairs
 - a. Represent the interests, technical and financial, of the NURHT on the RHSC Council of Chairs.
 - b. Collaborate with Chairs of other RHSC Implementing Mechanisms on Council of Chairs to coordinate regular reporting to RHSC Executive Committee.
 - c. Communicate to NURHT members, as necessary, messages from RHSC EC and/or Council of Chairs.
- v. Neutrality:
 - a. As per the Coalition's strategy and identified levers of change, the Chair is expected to leave his or her "institutional hat" at the door while acting in the position in order to candidly address sensitive issues, think outside the box and respect differences of opinion while remaining focused on what is shared in common.
 - b. The Chair is responsible for actively engaging his/her own institution on the question of upholding neutrality recognizing that this may at times run counter to institutional or client priorities.

Article 6. Conditions for Dissolution

The NURHT exists in perpetuity and as part of the formal governance structure of the RHSC until such a time when either: 1) it's Chair and members deem the group's existence no longer necessary; and/or 2) the RHSC Executive Committee decides to restructure or dissolve it.[§]

In order to vote for dissolution of the NURHT, one or more of the following conditions should be met:

- i. The group's mandate/goal has been achieved.
- ii. Any activities, workstreams, or subgroups associated with the NURHT have been completed or transferred to the leadership of another IM of the RHSC, Member organization, RHSC Partner.
- iii. All projects supported and funded through resources made available to the NURHT (i.e., Innovation Fund projects and other) have been terminated and results disseminated.
- iv. A shift in the external environment has occurred such that the existence of the NURHT is deemed counterproductive to current or existing initiatives; duplicative of other efforts or bodies; or no longer appropriate given current trends within the reproductive health supplies space.
- v. An alternative structure for the group (e.g., caucus, taskforce, online community of practice, etc.) is considered better suited to advance the objectives of the group and meet members' needs.

In the event that NURHT members determine that at least one of these conditions apply, the Chair(s) should draft a Statement of Dissolution providing evidence supporting the proposed dissolution of the WG. The Secretariat Coordinator will share this Statement with the entire membership of the NURHT and organize a vote amongst NURHT members to either approve or reject the group's dissolution. A simple majority vote by participating members is required to approve dissolution status.

If a majority vote in favor of dissolution is received, the Chair will present the election results and Statement to the RHSC Executive Committee at one of its biannual meetings. A vote will be called of the RHSC Executive Committee to approve the NURHT dissolution, of which a majority vote in favor is required to formally dissolve the group.

[§] As the governing body of the RHSC, the RHSC Executive Committee retains the right to restructure or dissolve any of the IMs of the RHSC to meet RHSC Strategy as it sees fit.
